RE: Stewart Air National Guard Base (NY3572824255)

Dear Mr. Smith:

A preliminary review of data within the U.S. Environmental Protection Agency (EPA) files and additional information submitted to EPA on November 18, 1991 (Preliminary Assessment Scoring Information Package Former Base Landfill) indicates that the Stewart Air National Guard Base does not warrant further remedial action under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). This decision is based on currently available information in EPA files. I have attached a copy of the PA Score sheets for your review.

The New York State Department of Environmental Conservation (NYSDEC) is maintaining oversight throughout the completion of all remedial actions at the Stewart Air National Guard Installation. Please provide me any additional information that would suggest any changes in site specific threats to human health and the environment.

If you have any questions, please call me at 212-264-0221.

Sincerely,

Walter H. Schoepf  
Ecologist
